

News:

Come and see us at CeMAT

The team at Constructor Russia are excited to announce that they will be taking a stand at CEMAT Russia 2017.

This event brings together over 100 of the leading national and international material handling, warehousing equipment and logistics companies from six different countries in Russia under one roof.

Being held at the IEC Crocus Expo in Moscow (metro Myakinino) over three days in September, it will provide a fascinating insight into the technological advances the industry has made over the years.

Visitors to the Constructor stand, which is Stand A115, will be able to meet the team to discuss some of the company's latest development in storage solutions.

"Our business is all about helping clients to optimise their storage space. With space at a premium in every city and location, we know that we're going to be busy, so please come early if you'd like to talk to us on the stand." Said Alexey Borzenko, Managing Director, Constructor Russia.

CEMAT in brief:

Event: CeMAT 2017. The 8th International Exhibition for materials handling, warehousing equipment and logistics.
